I am glad to call your attention to the fact that the per cent of attendance was higher than for the previous year, and only a little under the state average of 94.75. This record might be improved still further if children having communicable diseases were more strictly kept from others. Below is an extract from Chapter 123 of the Public Laws:

"The parent, guardian, or other person having the custody of a child who is infected with or who has been exposed to a communicable disease shall not permit him to attend either a public or private school.

"Any person who violates any provision of the two preceeding sections shall be fined ten dollars."

Our buildings are in good condition and apparently only in need of the usual minor repairs. If the same number of pupils continue to attend the school in Glencliff, a few more new desks should be purchased.

This year I am glad to report that a hot dish is being served to those pupils in Glencliff who bring their lunches. This activity has been financed and managed through the efforts of the teacher and pupils together with friends in the community. It is a very worth-

while project and we are all grateful, in behalf of the children, to all those who are helping.

Respectfully submitted,

EDWARD A. JANES.
